

CalSoft Compact

The Calmag Calsoft Compact is Ideal for landlords, tenants, apartment, shared housing or 1-2 person households.

Small, compact, the CalSoft compact, metered water softener is specifically designed to fit into small spaces. The energy saving units are suitable for all types of plumbing systems. Less salt and water are used as the metered, automatic unit only regenerates when necessary. Easy to operate electronics require little programming - simply adjust the water hardness level if needed. This durable water softener also features a stylish cabinet and hood, producing an endless supply of softened water.

All Calmag softeners are made to the highest industry specifications and manufacturing standards, confirming to all the relevant regulations and BS guidelines. That's why unlike some products that may cost a few pounds less, Calmag can give a full 5 years parts guarantee on their water softeners.

The Calmag Calsoft Compact also features a high quality brine tube. Manufactured to ensure the correct amount of brine is picked up and features slotted holes to ensure no salt encrustations. Fits neatly behind the vessel to ensure no damage from salt.

- Digital display - easy touch programming
- Low water usage
- Low salt consumption
- Fits neatly into kitchen cupboard
- Pre-set regeneration with minimal initial setup
- Sliding salt cover ergonomically designed for small spaces
- Mobile unit can be removed when moving property

Install Kits

The standard 1/2"/15mm installation kits are suitable for homes with a cold water storage tank. If however, your home has a combination boiler or direct hot water system we recommend the installation of our high flow 3/4"/22mm installation kit.

Each kit comes with inlet valve, outlet valve, bypass valve, washers and 2 x stainless steel hoses. We use stainless steel full bore hoses for maximum flow rates.
