Water hardness test kit included	✓	✓	✓
Connections	3/4" BSP or 1" BSP	3/4" BSP or 1" BSP	3/4" BSP or 1" BSP

The standard 1/2"/15mm installation kits are suitable for homes with a cold water storage tank. If however, your home has a combination boiler or direct hot water system we recommend the installation of our high flow 3/4"/22mm installation kit.

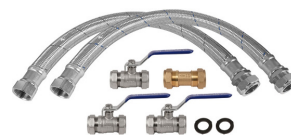

Each kit comes with inlet valve, outlet valve, bypass valve, washers and 2 x stainless steel hoses. We use stainless steel full bore hoses for maximum flow rates.
